Managing Innovation Projects

Kendall Clark
Director of Product Development
National Gypsum Company

Kendall Clark is Director of Product Development for National Gypsum Company. Mr. Clark has over 20 years of experience in the building materials industry and 15 years of experience in product development and research activities. He is the current Chairman of National Gypsum's Innovation Committee and Facilitator of the NGC Ideation Process.

Mr. Clark has spent the last 5 years helping design and implement corporate innovation programs and project management systems. He is a graduate of Virginia Tech and holds a BS in Civil Engineering.

National Gypsum is a world leader in the production of gypsum wallboard, supplies wallboard, interior finishing products, and cement backer board to the construction industry. Headquartered in Charlotte, N.C., the company has a network of 31 plants in North America and employs approximately 2700 employees.
