Green Logistics

Michael Ogle, Ph.D.

Vice President, Educational and Technical Services
Material Handling Industry of America

Dr. Mike Ogle is Vice President of Educational and Technical Services for the Material Handling Industry of America trade association. He earned a B.S. in Mechanical Engineering and an M.S. in Industrial Engineering from the University of Arkansas. He earned a Ph.D. in Industrial Engineering from Arizona State University. At MHIA, he serves as the Managing Director of the College Industry Council on Material Handling Education (www.CICMHE.org) and the Order Fulfillment Council (www.OrderFulfillmentCouncil.org) of MHIA. In addition, he coordinates development of standards and manages all technical activities for MHIA. Prior to joining MHIA, he was assistant professor and program coordinator of Industrial Engineering Technology at Georgia Southern University. He was also an assistant professor in the Mechanical and Industrial Engineering department at Louisiana Tech University. He also previously worked for Intel as a systems engineer and contract programmer.
